

Turbon AG Adhoc Report in accordance with § 15 Securities Trading Act (WpHG)

Turbon AG – Good first quarter 2010

Consolidated sales of the Turbon Group in the first quarter 2010 were 19.0 million Euro (previous year 24.1 million Euro) and by this slightly above plan. Also pleasing were the earnings figures accomplished in the first quarter, which all were above plan. EBIT (earnings before interest and taxes) were 1.6 million Euro (previous year 1.6 million Euro), result from ordinary operations was 1.35 million Euro (previous year 1.4 million Euro) and group net income was 0.8 million Euro (previous year 1.0 million Euro). Reasons for the good earnings figures despite distinctly lower sales in comparison to the first quarter of 2009 were an improved gross margin, lower administration expenses as well as a gain on exchange rate in the amount of 0.3 million Euro after recording a loss on exchange rate in the amount of 0.2 million Euro in the first quarter of 2009. As furthermore our sales team is making good progress on the acquisition of new sales in order to replace the ceased sales with Corporate Express (we reported), we adjust our forecast for the whole year 2010 to the upside. For the financial year 2010 we from today's point of view now expect consolidated sales between 75.0 and 80.0 million Euro and pre tax profits between 3.5 and 4.0 million Euro. The complete interim report for the first quarter 2010 will be available following the Supervisory Board Meeting on May 19, 2010 at Turbon AG, Sekretariat, Ruhrdeich 10, 45525 Hattingen or at our website www.turbon.de.
